

ABDELLAH ELAZZAOU

Data Science | Big Data | ETL Pipelines | Analytics & BI

+212 630 001 956 | elazzaoui859@gmail.com | linkedin.com/in/abdellah-elazzaoui | github.com/abdellah-elazzaoui

PROFESSIONAL SUMMARY

Data Engineering student at ENSA Agadir with hands-on experience designing ETL pipelines, processing large-scale datasets with Apache Spark and Kafka, and building analytical dashboards with Power BI. Comfortable across the full data stack from ingestion to visualization. Actively seeking a Data Science internship.

WORK EXPERIENCE

AI & Computer Vision Intern - Orange Summer Challenge 2025 Winner – Orange Morocco Jul – Sep 2025

- Managed and processed large image datasets: collection, labeling, cleaning, and train/val/test splitting for ML pipelines.
- Built automated preprocessing and augmentation scripts to standardize data at scale using Python and Pandas.
- Tracked experiment metrics and model performance data; reported results to stakeholders through structured summaries.

Data Science Intern – CodeAlpha (Remote) Jun 2025

- Built end-to-end data pipelines: ingestion, cleaning, transformation, EDA, and visualization using Python, Pandas, SQL, and Seaborn.
- Delivered analytical reports and interactive visual dashboards communicating key business insights to stakeholders.

DATA PROJECTS

- Big Data Pipeline – Apache Spark & Kafka**
Designed and implemented a real-time streaming data pipeline using Apache Kafka for event ingestion and Apache Spark Streaming for processing and aggregation at scale.
Stack: Apache Spark (Streaming, SQL, MLlib), Apache Kafka, Python, HDFS
- Data Warehouse & Power BI Dashboard**
Built a star-schema data warehouse from raw data using ETL processes, and designed interactive Power BI dashboards to surface KPIs for business decision-making.
Stack: SQL, PostgreSQL, Power BI, ETL, Data Modeling
- Gym Management System – Database & API Backend**
Architected the relational database schema and REST API backend for a full-stack gym management platform, supporting member records, subscriptions, and scheduling.
Stack: Django, DRF, PostgreSQL, REST API, React.js

EDUCATION

National School of Applied Sciences (ENSA), Agadir – Engineering – Data Science, Big Data & AI 2022 – 2027

ALX Program – Data Engineering & AI Certification 2024 – 2025

Baccalauréat – Sciences Physiques, Option Français – Mathematics & Physics 2022

TECHNICAL SKILLS

Big Data & Streaming: Apache Spark (SQL / MLlib / Streaming), Apache Kafka, Apache Airflow, HDFS, Databricks
Databases & SQL: PostgreSQL, MySQL, SQL Server, Data Modeling, Star Schema, Data Warehousing, MongoDB, Cassandra
ETL & Orchestration: ETL Pipeline Design, Apache Airflow, Docker, Data Cleaning, Data Transformation
Analytics & BI: Power BI, Pandas, NumPy, Matplotlib, Seaborn, Excel, Chart.js
Development: Python, Django / DRF, Git, REST APIs, Linux/Bash

CERTIFICATIONS

Data Engineer Associate (DataCamp, Jan 2025) | **Associate Data Analyst in SQL** (DataCamp, Feb 2025) | **ALX Data Analytics** (ALX, Sep 2025)
